

## 🔗 WHAT IS TRUESTAKE

**TrueStake** is a decentralized platform for prediction, analytics, and staking on real-world events.

- P2P prediction markets
  - Smart contracts & on-chain settlement
  - Telegram-native experience
  - Non-custodial (funds stay with users)
- 

## 🔗 THE PROBLEM

Traditional prediction & betting platforms suffer from:

- Manipulated outcomes
  - Slow withdrawals (weeks)
  - High fees (5–15%)
  - Limited country access
  - Complex onboarding (apps, wallets)
  - No local or custom events
  - Funds locked until event resolution
- 

## 🔗 THE SOLUTION

TrueStake removes intermediaries and friction.

- ✓ Instant on-chain settlement
  - ✓ Full transparency via smart contracts
  - ✓ Works directly inside Telegram
  - ✓ One-click prediction & payout
  - ✓ Low fees (~0.5%) + staking yield
  - ✓ Any user can create any event
  - ✓ Stakes can be sold before event ends
- 

## 🔗 HOW IT WORKS

1. User creates or joins an event
2. Predicts outcome (YES / NO)
3. USDT is locked in a smart contract
4. Funds participate in staking
5. Event resolves automatically
6. Instant on-chain payout

---

## 🔗 SOCIAL GROWTH LAYER

TrueStake is more than a market.

- Users vote on local & regional events
- Community-driven information flow
- Engagement builds trust
- A portion of users naturally enters prediction markets

→ Result: low-cost organic growth + strong network effects

---

## 🔗 MONETIZATION

- Platform fees (~2%)
  - Staking commissions
  - PRO subscriptions (\$7 / month)
  - Referral program
  - Partnerships & sponsored integrations
  - Token-based incentives (post-launch)
- 

## 🔗 MARKET & TIMING

- Prediction markets, Web3, analytics
  - ~20% annual market growth
  - Early-stage market formation
  - Global target audience:  
crypto users, analysts, fintech communities
- 

## 🔗 TSTK TOKEN

- Fixed supply: 100,000,000
  - Minting disabled (no dilution)
  - Early-stage investment instrument
  - Represents proportional ownership
  - Listing planned
- 

## 🔗 CURRENT STATUS

- MVP live (Telegram Mini App)
- Smart contracts implemented

- Team fully formed
  - Seed round open
  - Web version in development
- 

## VISION

**TrueStake** combines:

Prediction Markets

- Social Information Layer
- Long-Term Real-World Analytics
