

TrueStake (TSTK)

Token Sale Agreement, Terms, Digital Participation & Risk Disclosure

This document establishes the terms of participation in acquiring TrueStake (TSTK) tokens during Round 1 of the public sale. Confirmation of this document is mandatory to gain access to token purchase. The TrueStake project is owned by a legal entity registered in the Republic of Cyprus. TrueStake tokens are digital units of economic participation in the project.

Economic Nature of the Token

Digital Asset

TSTK is a digital asset reflecting a share of economic participation in the project.

Capitalization

50,000,000 TSTK = 100% digital capitalization of the project.

Round 1 Share

5,000,000 TSTK represent 10% digital participation.

The digital share reflects investor participation in the project's value and corresponds to a proportional economic share. TrueStake tokens are not securities but function as digital participation shares in accordance with international Web3 practices. Each token represents $1 / 50,000,000$ of the digital participation share.
